NEWS AND VIEWS...

And What Have You

By BOB CRAIG

The need for this session of the Legislature to pass some form of school finance reform bill has been widely reported for months. It is the one issue everyone agrees will receive top priority.

Because of its importance, we are turning over the balance of this column to Bill Clayton, Representative from Springlake and Speaker of the House. It is taken from his first newsletter since being elected to one of the top three positions in our state government.

"Because of its importance, I believe the questions we will be considering in committees during the next four months should be thoroughly presented to the public.

"Therefore, it is my goal to try to familiarize you with the past role Texas has played in school finance and what we will be considering this session.

"A review of the recent history of public school finance in Texas shows that recent court decisions have greatly affected the significant role the Legislature must take in this area.

"In 1971 a federal district court held unanimously in the case of Rodriguez vs. The San Antonio Independent School District that the Texas system of financing public schools violated the federal and state constitutions.

"The court said that depending heavily on local ad valorem taxes for financing schools made the quality of a child's education dependent on the wealth of his parents and neighbors.

"However, in 1973 the U. S. Supreme Court reversed that decision saying it recognized the apparent inequities of the Texas system but could not agree with the lower court that the judicial system should take the responsibility of making school financing equitable.

"Furthermore, the Supreme Court said that this responsibility clearly lay with the Texas Legislature.

"It was shortly thereafter that the Legislature, Governor and many interested groups began researching this problem.

"The task for creating a sound school finance system is extremely complex. Inadequacies presently exist in the way money is raised and in the way it is dispersed. This session we will need to take into account that proposals striving to make the system fair do not interfere with the rights of local communities. Nor should we interfere with a taxpayer's ability to survive economically.

"Some of the questions we will have to consider this session are:

"—What pupil populations will be recognized for funding? In other words, will students in different grades and types of programs like vocational and special education be funded differently? The Governor has offered what he terms a weighted pupil approach to solve this problem. All considerations along this line should be given close examination.

"—What type of student attendance figures will be used to determine the amount of state subsidy given to a local community? The question here is whether to remain with an average daily attendance figure or move to some other means of determining a formula for state share.

"—What types of staffs and staff salaries should school districts have? Presently wealthier communities have greater flexibility because they have more money to attract highly qualified people.

"—What is considered a fair tax effort on the part of the local

HOBBY IS WRITING SONGS—Will Andress collaborates with his daughter, Mrs. Herman Mayfield of Roby, in putting his songs on paper. Mr. Andress, who will celebrate his 90th birthday Feb. 28, writes the words and composes the melody and Mrs. Mayfield writes out the music. Mr. Andress, a resident of Holiday Lodge, has been blind since the age of 43.

Andress to Mark 90th Birthday—

With Song In His Heart, And A Spring In His Step

Will Andress, who will celebrate his 90th birthday next week, has a song in his heart and a spring in his step which could be accredited to his favorite hobby, composing songs and singing.

Andress, who has been blind since the age of 43,

creates the words and melody and his daughter, Naomi Mayfield of Roby takes the tune and writes out the music.

His first song was "While on My Journey" which was sung at his wife's funeral in 1971. Just last year this was

published in Vaughan's song book "Everlasting Love."

A strong bass, he enjoys singing with a quartet. He sings with Laveta Bruner, Opal Goodgame and Kathy Grubb, he said.

When asked to what he attributed his being so alert and active, he said, "I never have given up. I get up early, I always have, and I walk about four miles before breakfast." He walks the long corridors of Holiday Lodge nursing home where he now resides.

Once a part of the active community life of Hamlin, he sold popcorn in downtown Hamlin for about 30 years. Prior to losing his sight, he was a farmer. He now manages the renting of the two apartments in the family residence.

He was working on the First Baptist Church which was being constructed in the late 1920's when he got lime and cement in his eyes. The ulcers that resulted caused his blindness, he said.

He keeps up with daily happenings by listening to the radio and keeps in touch with others on the telephone in his room.

In his room he has a record player, recording equipment, records and a portable cassette recorder. He spends many hours listening to records furnished by agencies who aid the blind. He received the King James Version of the New Testament about two weeks ago and has already listened to all of it, he said.

He read Braille until a few years ago when more recorded books and materials became available.

He was born at Rusk in Cherokee County Feb. 28, 1885. He moved to Comanche at the age of five and spent his boyhood years around Comanche and De Leon.

He married Jessie B. Dillingham in 1907 in Comanche and they moved to Hamlin in 1912. They had seven children.

His children are Marvin Andress of Breckenridge, Mrs. Herman (Naomi) Mayfield of Roby, Mrs. Grace Holder, J. A. Andress, Mrs. Sybil Dryden and Mrs. Cal (Lynn) Brown, all of Los Angeles, Calif. A son, Carl, is deceased.

Mr. Andress was honored last week with other Lodge residents with February birth dates at a party sponsored by the Hamlin Business and Professional Women's Club.

City to Crack Down On Untagged Dogs

After receiving numerous complaints about loose or stray dogs, the City Council told Police Chief Ed Wheat to begin a crack down on unlicensed dogs within the city limits.

The annual vaccination clinic sponsored by the

Hamlin Future Farmers of America and the city will be held next month. Dogs will be vaccinated and tagged at that time.

The city dog tags or licenses are required to be renewed annually and any

dog found loose without a city license tag and a vaccination tag will be placed in the city pound to be claimed by its owner.

Charles Brumley appeared before the council Monday evening seeking a lease from the city for the land occupied by the gas pumps at the city airport. He sought to work out some arrangement with the city to operate the pumps and furnish gasoline to the airplanes using the local facility.

Mayor Joe E. Ford named Councilmen A. E. Killion and Mike Byerly to work with Brumley on the details of such a lease.

Mayor Ford brought the council up to date on the current status of the city's sewer project and told them that the city was now in the second stage of the program which was the preparation of plans. The city recently received a government grant for this step of the program and the Abilene Engineering firm of Yeatts and Decker, Inc. is currently in the process of working on the plans for the Wastewater Treatment Plant for the city.

The city has been working on this project since early 1971 in an effort to meet federal and state requirements.

The city commissioners also discussed the problem of parking and traffic congestion on the west side of the Post Office. The council instructed Chief Wheat to restrict the parking spaces on the West side of the post office building and issue warning tickets for improper parking.

Members of the local Boy Scout Troop were guests at the council meeting.

'Stampathon' Scheduled for Stage Band

The S and H Green Stamp Company announced this week that they will redeem books of green stamps for \$2.00 a book during a special "Stampathon" for the Hamlin Stage Band's Summer European Tour.

Nancy Sommer, regional consumer relations manager for S & H, said that the special project would be conducted from Mar. 3 through Mar. 14.

Green Stamp books may be donated to the Stage Band by turning them in to C. L. Howard at Howard Drug Co., Joye Cary at Turner Insurance Agency or at the high school band hall.

The "Stampathon" drive is scheduled to cover all the cities in the big country area, according to C. L. Howard, coordinator of solicitations.

Forage and Fertilizer Meeting Set

A Forage Production and Fertilizer meeting will be held in the conference room of the Jones County Farm Bureau office building in Anson on Tuesday evening, Feb. 25, at 7:00 p.m., according to information this week from Jones County Extension Agent Kirby Clayton.

Dr. Dale Lovelace, Area Agronomist with Texas A&M University Extension Service, will discuss "Improved Forage Grasses for Hay and Grazing." Jim Valentine, Area Soil Scientist with Texas A&M University Extension Service, will discuss soil sampling and fertilizer applications to forage small grains and row crops for maximum production.

Everyone is invited to attend the meeting.

Stage Band Sets Supper Here Saturday

A Chicken Spaghetti Supper will be served Saturday from 5 to 7:30 p.m. in the high school cafeteria sponsored by the Hamlin High School Stage Band.

Tickets now on sale from stage band members are \$2.50 for adults and \$1.75 for children under 12. Tickets will also be sold at the door. The menu will include chicken spaghetti, green beans, tossed salad, spiced peaches, garlic French bread, cobbler, iced tea and coffee.

Agent Warns Against Over Grazing Small Grain Crop

Good soil moisture in Jones County has boosted forage production on small grains. But some farmers are planning to forfeit spring grazing and shoot for a grain crop due to favorable grain price prospects, notes Clayton, County Agent for the Texas Agricultural Extension Service.

Livestock should now be removed from small grain fields so that serious grain yield reductions do not occur. With grazing, the problem is normally not underutilization of the small grain forage but overgrazing. Moderate fall and winter grazing usually has little effect on grain yields and

may even prevent lodging and increase tillering.

Late grazing seriously reduces grain yields, emphasizes Clayton, due to removal of the plant's growing point, loss of accumulated nitrogen in the forage, and decreased leaf area needed for vegetative growth.

If small grains have been grazed, the nitrogen content of plants has been reduced. So topdressing with nitrogen fertilizer should be considered to maintain acceptable grain yields, especially if soil moisture conditions are favorable at the time livestock are removed.

Local Hospital District Sets Election Apr. 1

Tips On Planning—

Your Vegetable Garden

Time spent in late winter and early spring to plan your vegetable garden will provide fresh vegetables for eating and preservation with less work, believes Kirby Clayton, county agent with the Texas Agricultural Extension Service.

The first, important consideration is to choose vegetables that the family likes best. If only one or two members of the family like a particular vegetable, it may be cheaper to buy it at the supermarket and use the garden space for those vegetables enjoyed by all.

Secondly, choose those vegetables that have a superior taste and flavor when freshly harvested as compared to the usual store bought produce. Tomatoes, sweet corn, peas and snap beans are good examples of vegetables that taste better when harvested garden fresh.

Space is another consideration, adds Clayton. A small garden can provide many meals if vegetables chosen do not require a lot of garden space. Also dwarf varieties of many vegetable crops are available.

Clayton recommends that the inexperienced home gardener start with a relatively small garden and select vegetables that are relatively easy to grow. A garden 20 feet by 20 feet can

HEART LINE

Acceptable cuts for limited menu

Copley News Service

In 1975 why not resolve to serve smaller portions of meat? This is an easy way to help both pocketbooks and hearts.

Most Americans eat too much meat. Meat is high in saturated fat and cholesterol, so limit beef, pork, or lamb to three or four times a week. Replace the high quality protein of the meat in your menus with the equally good protein of veal, poultry, and fish as well as low fat cottage cheese or yogurt.

Protein servings should be limited to 3 or 4 ounces.

Buy meat that is lean and any visible fat should be trimmed before cooking.

The following are acceptable cuts and varieties:

Beef roasts: Sirloin tip, round, rump, arm;
Beef steaks: Flank, T-bone, tenderloin, round;
Ground beef: Lean;
Veal: Steaks, chops, cutlets;

Lamb: Leg, well-trimmed chops;

Pork: Lean loin, roasts, chops;

Chicken and turkey: Remove skin before or after cooking;

Fish and shellfish: Any kind (except shrimp should be served only occasionally).

All meats, fowl and fish should be broiled, roasted or baked. Polyunsaturated oil may be used for frying. For each 3-ounce serving of cooked beef, fish, chicken or

And What Have You

Continued from page 1

community? And should the local property tax assessments be regulated by uniform state standards?

"—Will the Foundation School Program be financed from state or local revenues? This actually boils down to what percentage of public school financing should be the state's and what should be local?

"—To what extent can a school district raise money to enrich school programs above the minimum Foundation School Program? The obvious question to follow this one is how can we better equalize the amount of money rich and poor districts raise.

It is my hope that we will look long and hard at any proposal that restricts a local community's right to control the amount of local money it wishes to spend on making their school system the best it can be.

"—The last consideration is whether a full market value tax assessment be placed on farm, ranch and timber land. I believe the approach we took in the Constitutional Convention in Finance Article VIII is a fair one. The article states that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. However, farm, ranch and timber land would fall under separate formulas so not to overly tax people with land in production.

"Of course, these are not all the considerations, but I feel they are the main ones. All of them will have to be aired thoroughly, and hopefully with your input, we will come up with a solid piece of legislation.

"There will be many bills and proposals introduced to the Public Education Committee, and I'm sure the best parts will be taken from each to make a public school finance bill that will provide the children of this state with equal educational opportunities.

"I want to stress to you that the problems facing us will not be fully solved this session, or next session, or the session after that. Public school financing will be an issue that requires updating and revision for years to come. However, I hope we can come up with a flexible and durable plan that will allow us to build on it in future years."

The public is invited to view the paintings during opening hours at the gallery, Mrs. Blanton said.

On Top

The Bible, "God's holy word," is still the best seller, and most quoted book.

From the original Greek and Hebrew this book has been translated into many languages.

Through the centuries men have devotedly studied and sought out the truth in the Bible. When one reads the Bible with an open mind, God's word is "as sharp as a two edged sword."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

according to the County
Extension Agent.

Designed for farm and
ranch operators, subjects will
range from world-wide
demand for food and fiber,
farm power and equipment of
the future, fertilizer situation
around the world, to a
discussion of economic
pressures which will affect
agricultural income.

Held in connection with the
Southwest Farm Show, the
"New World of Agriculture"
Forum is slated for the
Tarrant County Convention
Center and is jointly spon-
sored by the Texas
Agricultural Extension
Service.

"We have been able to pull
together in Fort Worth for the
first time, speakers who

agriculture," the agent said.
"Every farmer and rancher

program," he added.

The Forum will open at
10:00 a.m., March 7 in the
Tarrant County Convention
Center.

Congressman Jerry Litton
of Missouri will be the
featured speaker at the
Forum Luncheon.

When consumer boycotts
recently threatened to fur-
ther divide rural agriculture
and urban America, Con-
gressman Litton gained
national acclaim when he
invited agricultural leaders
to Washington and
challenged them to unite in

one voice and close the gap
between the producer and the
consumer.

H. J. Head, General
Operations Manager of Ford
Motor Company's Tractor
and Implement Operations
for North America, will speak
on "New World of
Agriculture - Farm Equip-

needs, and the current energy
situation and its effects on
fertilizer production.

Ernest T. Baughman,
President of the Federal
Reserve Bank, Dallas, who
will cover the role of the
Federal Reserve System and
its relationship to the
financial needs of North
Texas farm and ranch
operators.

"Tickets to the "New World
of Agriculture" Forum may
be secured from any local

agent explained.

Facilities are limited at the
Forum and reservations will

Martin, who represents the
61st District of Nolan, Fisher,
Jones, Mitchell and a major
part of Taylor County, was
named at a Thursday break-
fast meeting sponsored by the
West Texas Chamber of
Commerce.

New president of the
delegation, which includes 54
State Representatives and 10
Senators from an area
stretching from Fort Worth to
El Paso, is State Rep. Dave
Finney of Fort Worth.

It has been a long-standing
tradition for West Texas
Representatives and Sen-
ators to organize their
delegation for each
legislative session.

"It has proved to be a
working and worthwhile
organization as a forum for
exchanging information, for
coordinating and influencing
policy concerning legislation
and governmental programs
affecting West Texas," said
Rep Martin.

Joining his fellow West
Texans at the delegation's
first meeting of the current
Legislature was Speaker of
the House of Representatives
Bill Clayton of Springlake.

Mrs. Willis Page visited in
Los Angeles, Calif., last week
with her son, Art Caraway
and her daughter, Mrs.
William Carnis.

Mrs. Vernon (Faye) Harris
returned home Saturday
after four weeks in the
Methodist Hospital in Lub-
bock after Knee surgery Jan.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

The need for this session of the Legislature to pass some form of school finance reform bill has been widely reported for months. It is the one issue everyone agrees will receive top priority.

Because of its importance, we are turning over the balance of this column to Bill Clayton, Representative from Springlake and Speaker of the House. It is taken from his first newsletter since being elected to one of the top three positions in our state government.

"Because of its importance, I believe the questions we will be considering in committees during the next four months should be thoroughly presented to the public.

"Therefore, it is my goal to try to familiarize you with the past role Texas has played in school finance and what we will be considering this session.

"A review of the recent history of public school finance in Texas shows that recent court decisions have greatly affected the significant role the Legislature must take in this area.

"In 1971 a federal district court held unanimously in the case of Rodriguez vs. The San Antonio Independent School District that the Texas system of financing public schools violated the federal and state constitutions.

"The court said that depending heavily on local ad valorem taxes for financing schools made the quality of a child's education dependent on the wealth of his parents and neighbors.

"However, in 1973 the U. S. Supreme Court reversed that decision saying it recognized the apparent inequities of the Texas system but could not agree with the lower court that the judicial system should take the responsibility of making school financing equitable.

"Furthermore, the Supreme Court said that this responsibility clearly lay with the Texas Legislature.

"It was shortly thereafter that the Legislature, Governor and many interested groups began researching this problem.

"The task for creating a sound school finance system is extremely complex. Inadequacies presently exist in the way money is raised and in the way it is dispersed. This session we will need to take into account that proposals striving to make the system fair do not interfere with the rights of local communities. Nor should we interfere with a taxpayer's ability to survive economically.

"Some of the questions we will have to consider this session are:

"—What pupil populations will be recognized for funding? In other words, will students in different grades and types of programs like vocational and special education be funded differently? The Governor has offered what he terms a weighted pupil approach to solve this problem. All considerations along this line should be given close examination.

"—What type of student attendance figures will be used to determine the amount of state subsidy given to a local community? The question here is whether to remain with an average daily attendance figure or move to some other means of determining a formula for state share.

"—What types of staffs and staff salaries should school districts have? Presently wealthier communities have greater flexibility because they have more money to attract highly qualified people.

"—What is considered a fair tax effort on the part of the local

HOBBY IS WRITING SONGS—Will Andress collaborates with his daughter, Mrs. Herman Mayfield of Roby, in putting his songs on paper. Mr. Andress, who will celebrate his 90th birthday Feb. 28, writes the words and composes the melody and Mrs. Mayfield writes out the music. Mr. Andress, a resident of Holiday Lodge, has been blind since the age of 43.

Andress to Mark 90th Birthday—

With Song In His Heart, And A Spring In His Step

Will Andress, who will celebrate his 90th birthday next week, has a song in his heart and a spring in his step which could be accredited to his favorite hobby, composing songs and singing.

Andress, who has been blind since the age of 43,

creates the words and melody and his daughter, Naomi Mayfield of Roby takes the tune and writes out the music.

His first song was "While on My Journey" which was sung at his wife's funeral in 1971. Just last year this was

published in Vaughan's song book "Everlasting Love."

A strong bass, he enjoys singing with a quartet. He sings with Laveta Bruner, Opal Goodgame and Kathy Grubb, he said.

When asked to what he attributed his being so alert and active, he said, "I never have given up. I get up early, I always have, and I walk about four miles before breakfast." He walks the long corridors of Holiday Lodge nursing home where he now resides.

Once a part of the active community life of Hamlin, he held popcorn in downtown Hamlin for about 30 years. Prior to losing his sight, he was a farmer. He now manages the renting of the two apartments in the family residence.

He was working on the First Baptist Church which was being constructed in the late 1920's when he got lime and cement in his eyes. The ulcers that resulted caused his blindness, he said.

He keeps up with daily happenings by listening to the radio and keeps in touch with others on the telephone in his room.

In his room he has a record player, recording equipment, records and a portable cassette recorder. He spends many hours listening to records furnished by agencies who aid the blind. He received the King James Version of the New Testament about two weeks ago and has already listened to all of it, he said.

He read Braille until a few years ago when more recorded books and materials became available.

He was born at Rusk in Cherokee County Feb. 28, 1885. He moved to Comanche at the age of five and spent his boyhood years around Comanche and De Leon.

He married Jessie B. Dillingham in 1907 in Comanche and they moved to Hamlin in 1912. They had seven children.

His children are Marvin Andress of Breckenridge, Mrs. Herman (Naomi) Mayfield of Roby, Mrs. Grace Holder, J. A. Andress, Mrs. Sybil Dryden and Mrs. Cal (Lynn) Brown, all of Los Angeles, Calif. A son, Carl, is deceased.

Mr. Andress was honored last week with other Lodge residents with February birth dates at a party sponsored by the Hamlin Business and Professional Women's Club.

City to Crack Down On Untagged Dogs

After receiving numerous complaints about loose or stray dogs, the City Council told Police Chief Ed Wheat to begin a crack down on unlicensed dogs within the city limits.

The annual vaccination clinic sponsored by the

Hamlin Future Farmers of America and the city will be held next month. Dogs will be vaccinated and tagged at that time.

The city dog tags or licenses are required to be renewed annually and any

dog found loose without a city license tag and a vaccination tag will be placed in the city pound to be claimed by its owner.

Charles Brumley appeared before the council Monday evening seeking a lease from the city for the land occupied by the gas pumps at the city airport. He sought to work out some arrangement with the city to operate the pumps and furnish gasoline to the airplanes using the local facility.

Mayor Joe E. Ford named Councilmen A. E. Killion and Mike Byerly to work with Brumley on the details of such a lease.

Mayor Ford brought the council up to date on the current status of the city's sewer project and told them that the city was now in the second stage of the program which was the preparation of plans. The city recently received a government grant for this step of the program and the Abilene Engineering firm of Yeatts and Decker, Inc. is currently in the process of working on the plans for the Wastewater Treatment Plant for the city.

The city has been working on this project since early 1971 in an effort to meet federal and state requirements.

The city commissioners also discussed the problem of parking and traffic congestion on the west side of the Post Office. The council instructed Chief Wheat to restripe the parking spaces on the West side of the post office building and issue warning tickets for improper parking.

Members of the local Boy Scout Troop were guests at the council meeting.

'Stampathon' Scheduled for Stage Band

The S and H Green Stamp Company announced this week that they will redeem books of green stamps for \$2.00 a book during a special "Stampathon" for the Hamlin Stage Band's Summer European Tour.

Nancy Sommer, regional consumer relations manager for S & H, said that the special project would be conducted from Mar. 3 through Mar. 14.

Green Stamp books may be donated to the Stage Band by turning them in to C. L. Howard at Howard Drug Co., Joye Cary at Turner Insurance Agency or at the high school band hall.

The "Stampathon" drive is scheduled to cover all the cities in the big country area, according to C. L. Howard, coordinator of solicitations.

Forage and Fertilizer Meeting Set

A Forage Production and Fertilizer meeting will be held in the conference room of the Jones County Farm Bureau office building in Anson on Tuesday evening, Feb. 25, at 7:00 p.m., according to information this week from Jones County Extension Agent Kirby Clayton.

Dr. Dale Lovelace, Area Agronomist with Texas A&M University Extension Service, will discuss "Improved Forage Grasses for Hay and Grazing." Jim Valentine, Area Soil Scientist with Texas A&M University Extension Service, will discuss soil sampling and fertilizer applications to forage small grains and row crops for maximum production.

Everyone is invited to attend the meeting.

Stage Band Sets Supper Here Saturday

A Chicken Spaghetti Supper will be served Saturday from 5 to 7:30 p.m. in the high school cafeteria sponsored by the Hamlin High School Stage Band.

Tickets now on sale from stage band members are \$2.50 for adults and \$1.75 for children under 12. Tickets will also be sold at the door. The menu will include chicken spaghetti, green beans, tossed salad, spiced peaches, garlic French bread, cobbler, iced tea and coffee.

Agent Warns Against Over Grazing Small Grain Crop

Good soil moisture in Jones County has boosted forage production on small grains. But some farmers are planning to forfeit spring grazing and shoot for a grain crop due to favorable grain price prospects, notes Clayton, County Agent for the Texas Agricultural Extension Service.

Livestock should now be removed from small grain fields so that serious grain yield reductions do not occur. With grazing, the problem is normally not underutilization of the small grain forage but overgrazing. Moderate fall and winter grazing usually has little effect on grain yields and

may even prevent lodging and increase tillering.

Late grazing seriously reduces grain yields, emphasizes Clayton, due to removal of the plant's growing point, loss of accumulated nitrogen in the forage, and decreased leaf area needed for vegetative growth.

If small grains have been grazed, the nitrogen content of plants has been reduced. So topdressing with nitrogen fertilizer should be considered to maintain acceptable grain yields, especially if soil moisture conditions are favorable at the time livestock are removed.

Local Hospital District Sets Election Apr. 1

The Board of Directors of the Hamlin Hospital District has called an election of directors for Tuesday, Apr. 1, in the Hamlin City Hall. The terms of four directors expire this year and all four have filed for re-election.

Directors whose terms expire this year are: John Scarborough, board president, Joe Cowan, Donald Young and John R. Brown Jr.

Deadline for filing for a place on the ballot is Friday, Mar. 7. Anyone interested in seeking a place on the board should contact Board Secretary Bill Harbert. Along with the filing forms, a petition with the signatures of 10 qualified voters is required to have a name placed on the ballot.

Rev. Mann To Speak

The Rev. L. D. Mann of Hood River, Ore., will be the special speaker for the Sunday services at 11 a.m. and 6 p.m. at First Assembly of God Church.

The Rev. Mann, an evangelist, was here last year in the spring for a revival at the local church.

The announcement was made by the Rev. Carl Amburn, pastor. The public is invited, he said.

DL Office To Close Wed.

Melvin Cagle of the Jones County Drivers License Bureau has announced that the Hamlin office will be closed Wednesday, Feb. 26.

All Jones County Drivers License offices will be closed Feb. 24 through 28, according to Cagle.

Movies Set

Movies to be shown Saturday afternoon by the Hamlin Stage Band have been announced as follows: "Fine Feathers," "Frog Went a Courtin'," "Peter and the Wolf," "Vagabond" and "What Price Taxi."

The movies are shown from 2 to 4 p.m. at the Pastime Club on Southwest Second Street.

Bill Cork visited his brother, Howard in Oakland, Calif., last week.

Daylight Time Returns Sunday

Daylight Saving Time returns Sunday morning, Feb. 23, and will last until Oct. 26. The time change becomes effective at 2 a.m. Sunday morning with clocks moved ahead one hour.

The time change will allow an extra hour of afternoon daylight for those who work in yards and gardens, play golf, or any other outdoor activity.

Tips On Planning—

Your Vegetable Garden

Time spent in late winter and early spring to plan your vegetable garden will provide fresh vegetables for eating and preservation with less work, believes Kirby Clayton, county agent with the Texas Agricultural Extension Service.

The first, important consideration is to choose vegetables that the family likes best. If only one or two members of the family like a particular vegetable, it may be cheaper to buy it at the supermarket and use the garden space for those vegetables enjoyed by all.

Secondly, choose those vegetables that have a superior taste and flavor when freshly harvested as compared to the usual store bought produce. Tomatoes, sweet corn, peas and snap beans are good examples of vegetables that taste better when harvested garden fresh.

Space is another consideration, adds Clayton. A small garden can provide many meals if vegetables chosen do not require a lot of garden space. Also dwarf varieties of many vegetable crops are available.

Clayton recommends that the inexperienced home gardener start with a relatively small garden and select vegetables that are relatively easy to grow. A garden 20 feet by 20 feet can

HEART LINE

Acceptable cuts for limited menu

Copley News Service

In 1975 why not resolve to serve smaller portions of meat? This is an easy way to help both pocketbooks and hearts.

Most Americans eat too much meat. Meat is high in saturated fat and cholesterol, so limit beef, pork, or lamb to three or four times a week. Replace the high quality protein of the meat in your menus with the equally good protein of veal, poultry, and fish as well as low fat cottage cheese or yogurt.

Protein servings should be limited to 3 or 4 ounces.

Buy meat that is lean and any visible fat should be trimmed before cooking.

The following are acceptable cuts and varieties:

Beef roasts: Sirloin tip, round, rump, arm;

Beef steaks: Flank, T-bone, tenderloin, round;

Ground beef: Lean;

Veal: Steaks, chops, cut-

lets;

Lamb: Leg, well-trimmed chops;

Pork: Lean loin, roasts, chops;

Chicken and turkey: Remove skin before or after cooking;

Fish and shellfish: Any kind (except shrimp should be served only occasionally).

All meats, fowl and fish should be broiled, roasted or baked. Polyunsaturated oil may be used for frying. For each 3-ounce serving of cooked beef, fish, chicken or

turkey, buy two extra ounces for meat with bone, one extra ounce for fish or lean meat without bone. This allows for trimming and for shrinkage in cooking.

TURKEY, TOMATO, AND RICE

Another good way to use leftover turkey.

8 ounces cooked turkey, cut up

2 tablespoons diced onion

1/2 cup fresh mushrooms, sliced

1 medium tomato, peeled and chopped

1 cup tomato juice

2 tablespoons polyunsaturated oil

1 bouillon cube

1/2 teaspoon garlic powder

1/2 bay leaf

1/2 teaspoon Worcestershire

Salt and pepper to taste

1 cup cooked rice

Place all ingredients except turkey and rice in a skillet. Simmer slowly until tomato juice is reduced and thickened. Add turkey. Heat for 3 or 4 minutes. Serve over rice. Makes 2 servings.

MARINATED BAKED CHICKEN

1/4 cup soy sauce

1/4 cup wine vinegar

1/4 teaspoon ginger powder

2 tablespoons polyunsaturated oil

2 teaspoons sugar

1 2 1/2-pound frying chicken, skinned and cut-up

Combine all ingredients, except chicken. Place chicken parts in marinade for 3 hours, or overnight. Bake chicken with marinade at 350 degrees for 45 minutes or until tender. Makes 4 or 5 servings.

ORIENTAL BEEF

Serve this easy dish when you are not sure how soon guests will arrive. The meat can marinate until a few minutes before serving time.

1/2 cup soy sauce

3 tablespoons sugar

2 tablespoons minced onion

1 teaspoon hot pepper sauce

2 teaspoons ground ginger

1 1/2 pounds sirloin of beef

2 tablespoons polyunsaturated oil

1 tablespoon sesame seeds

1 1/2 cups cooked rice

Blend soy sauce, sugar, minced onion, hot pepper sauce and ground ginger. Pour over beef cut into 1/4-inch cubes and marinate at least an hour. Heat oil and add drained meat. Cook 2 to 3 minutes (or to taste) stirring constantly. Sprinkle with toasted sesame seeds. Serve on hot cooked rice. Serves 6.

community? And should the local property tax assessments be regulated by uniform state standards?

"—Will the Foundation School Program be financed from state or local revenues? This actually boils down to what percentage of public school financing should be the state's and what should be local?

"—To what extent can a school district raise money to enrich school programs above the minimum Foundation School Program? The obvious question to follow this one is how can we better equalize the amount of money rich and poor districts raise.

It is my hope that we will look long and hard at any proposal that restricts a local community's right to control the amount of local money it wishes to spend on making their school system the best it can be.

"—The last consideration is whether a full market value tax assessment be placed on farm, ranch and timber land. I believe the approach we took in the Constitutional Convention in Finance Article VIII is a fair one. The article states that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. However, farm, ranch and timber land would fall under separate formulas so not to overly tax people with land in production.

"Of course, these are not all the considerations, but I feel they are the main ones. All of them will have to be aired thoroughly, and hopefully with your input, we will come up with a solid piece of legislation.

"There will be many bills and proposals introduced to the Public Education Committee, and I'm sure the best parts will be taken from each to make a public school finance bill that will provide the children of this state with equal educational opportunities.

"I want to stress to you that the problems facing us will not be fully solved this session, or next session, or the session after that. Public school financing will be an issue that requires updating and revision for years to come. However, I hope we can come up with a flexible and durable plan that will allow us to build on it in future years."

On Top

The Bible, "God's holy word," is still the best seller, and most quoted book. From the original Greek and Hebrew this book has been translated into many languages.

Through the centuries men have devotedly studied and sought out the truth in the Bible. When one reads the Bible with an open mind, God's word is "as sharp as a two edged sword."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Approximately 95 John
Deere customers and dealers
from the Hamlin area
recently visited the Deere &
Company Administrative
Center in Moline, Illinois, as
well as Deere factories in that
area and in Iowa.

The purpose of the trip was
to acquaint the customers
and dealers with new John
Deere farm equipment and
show them how it is
manufactured.

The visitors also met with
Company executives and saw
slide and film presentations
on new Deere products.

The Hamlin group was one
of many scheduled to visit the
Deere headquarters and
factories between mid-
November and mid-March.
Altogether, the Company
expects between 12,000 and

according to the County

Designed for farm and

range from world-wide

one voice and close the gap
between the producer and the
consumer.

Neinda Philosopher Comes Up With Odd Ideas Based On Some Odd Court Decisions

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes off in several directions this week.

Dear editor:

According to an account in the paper the other day, a Federal judge, having found four executives of a big outfit guilty of price-fixing, has sentenced them to six months work in the Salvation Army or similar public service work. He said fining them for breaking the law, like fining all those big-shot executives who made illegal campaign contributions, wouldn't achieve anything, their companies would just pay the fine and that'd be the end of it.

In other words, I guess you'd say, the judge was underlining the principle of penalizing the individual rather than the company, and I think the idea should be expanded.

For example, in a football game, say the wide end, eager to get down field to catch a pass, jumps off sides. Why penalize the whole team for one man's error? Instead, just penalize him. Make him line up five yards back on the next play. Somebody clip? Put him back 15 yards.

Now this would be a little more difficult in basketball but it can be swung. Say a 6-foot-8 forward fouls an opponent. Don't give the other team two free shots. Penalize the forward one foot, thus requiring the coach to replace him with a player who's 5-foot-8. Have a tape measure handy to make sure. This

would give all-size kids a chance to play basketball. By the time the game was over some coaches would be reaching down into kindergarten.

Speaking of odd sentences, another Federal judge the

K. O. (Odell) Garrett, 65, retired U. S. civil service employee, died at 5 a.m. Tuesday at his home after an apparent heart attack.

Burial will be in the Hamlin East Cemetery under the direction of McCoy Funeral Home.

Born Apr. 5, 1909, in Bangs, Mr. Garrett was a U. S. Army World War II veteran. He married Zada Stephenson on July 29, 1941, in Hamlin. He was a longtime resident of Hamlin.

other day sentenced a lawyer to a two-year probated sentence without supervision when he was found guilty of being involved in a fraudulent land investment scheme. The attorney for the lawyer told the judge his client had practiced law for 25 years and "would not benefit from prison." That's probably right, just as the investors swindled by the fraudulent land scheme didn't benefit either. You've got to keep things in balance.

Unless you're talking about the Federal budget. Yours faithfully, J.A.

Former Teacher Mrs. Hammond, Dies In Abilene

Mrs. Jimmie Lee Hammond, 58, of Abilene, a former teacher in the Hamlin Public School system, died at 9:10 p.m. Saturday in Cox Memorial Hospital in Abilene after an apparent heart attack. She was a fifth grade teacher at Milam Elementary School.

Born Feb. 11, 1917 in Mart, she married L. M. Hammond Aug. 23, 1967 in Abilene. He died in 1973. She had lived in Abilene for six years. She was a member of Mount Zion Baptist Church.

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—Although, the 64th Legislature has done little that is spectacular, it has managed to spend about a million dollars a day on the average during its first month of operation.

Since reporting for duty here January 14, lawmakers have passed so-called emergency measures totalling \$314.8 million. And work on the new biennial budget is just getting started good in House appropriations and Senate finance committees!

A significant part of the total—\$123.8 million for increased retirement benefits for state employees and school teachers—is contingent on adoption by voters of a Constitutional Amendment April 22.

The amendment would raise the ceiling on state matching contributions to the retirement systems. If voters won't permit that, the appropriation voted by lawmakers this month will be nullified.

One of the first of the appropriations bills speeded through both houses provides \$93 million for immediate pay raises to state employees. More raises will be included in the budget for the new 1976-77 fiscal period.

Another \$80 million was allocated as an emergency grant fund to aid school districts which are having a hard time making ends meet. Another \$18 million went to the junior colleges which have been experiencing unexpected growth.

A variety of other smaller appropriations measures, totalling several million dollars more, are being acted on speedily.

HIGHWAY FUNDS FREED President Ford announced he would free \$2 billion worth of impounded federal interstate highway funds to help provide jobs and fight the recession.

State Highway Department officials estimated \$150 million worth of projects can begin soon when the money is received.

Texas ordinarily contracts for \$30 million to \$50 million worth of projects monthly,

but may take bids on \$150 million worth in March and April to get the newly-released funds.

Meanwhile, a federal judge in Washington held the President does not have the power to impound money appropriated to the states for highways by Congress.

Texas and 11 other states filed the lawsuit which brought the new ruling.

HILL BACKED

Atty. Gen. John Hill's lawsuit to block a \$45 million intrastate long-distance rate hike by Southwestern Bell

THURSDAY, FEBRUARY 20, 1975, PAGE 7

Telephone Company won House of Representatives support.

Representatives voted 87-

48 for a resolution encouraging Hill to push forward with the action.

Rep. Jim Nugent of Kerrville said Hill is acting in an area without "specific statutory authority" and needs all the backing he can get.

Hill has challenged the increase on grounds that the rates proposed are too high. He won a temporary restraining order to halt the hike, and the case was set for hearing on his request for injunction early this week.

ENERGY PLAN OFFERED

Gov. Dolph Briscoe offered his own energy plan to President Ford in a meeting at Houston.

Included in the Briscoe plan are deregulation of the price of "old" oil, coupled with an excess profits tax. A "plowback credit" would be given on funds used to develop new energy.
